

FUELSTAT® RESULT

FUELSTAT® Plus comes with a FREE App that verifies the result instantly after the test has been completed. It is available on iOS and Android.

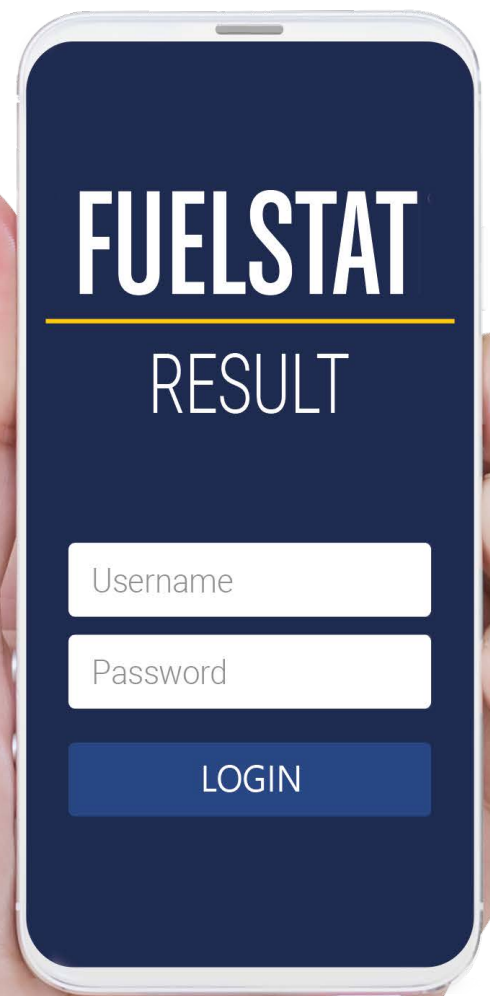

For full flexibility we now offer two options for using the app, but both are designed to give users the unique digital experience of verification of FUELSTAT® test results almost instantly using an easy to use application on your smartphone. The way you use the app is down to each individual organisation.

FUELSTAT® RESULT - MOBILE USER

NEW mobile user access gives accurate verification of test results that can be shared internally. Organisations DO NOT have to pre-register; users can immediately download the app and digitally verify their first test results within minutes.

FUELSTAT® RESULT & REPORT

The full user experience of FUELSTAT® Result & Report allows organisations instant access to test results conducted anywhere around the globe. Managers have control to register their users and access the Report portal to track test results across all of their assets in real time.

FEATURE	MOBILE USER	RESULT & REPORT
FREE download via iOS and Android	●	●
Instant verification of test results	●	●
Share test results internally	●	●
Store last 10 test results on smartphone	●	●
Pre-registration of organisation & users		●
Individual user login details		●
Manager access to portal		●
Track organisation's test results in real time		●
Secure storage of test results for trend analysis		●
PDF reports for each test result		●

FUELSTAT® RESULT - MOBILE USER

Mobile user access provides instant digital verification of your FUELSTAT® test result. This free to download app gives the reassurance of instant test verification, as well as storage of your last 10 tests on your smartphone.

- **Reduces risk** of misinterpretation
- **Immediate visual verification** of result
- No need for additional equipment other than a smartphone

This is becoming a popular choice for new users of FUELSTAT® in many different industries. It supports solo working principles and gives accurate verification of test results that can be shared internally. Organisations DO NOT have to pre-register; users can immediately download the app and digitally verify their first test results within minutes.

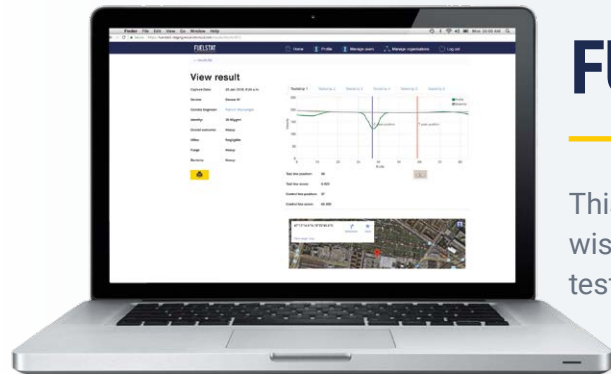

FUELSTAT® RESULT & REPORT

This full version of the app is the option of choice for organisations wishing to manage all of their global fuel microbial contamination tests in one secure portal. Managers have access to the FUELSTAT® Report portal to view test results and can register individual users with their own unique login and password.

- Fully **detailed report** can be instantly produced in PDF format
- **Traceability** of testing
- Identification of hotspots for **planning**
- Proof of test, proof of result, proof of method

TRIED. TESTED. TRUSTED.
