

FUELSTAT® RESULT

FUELSTAT® Plus comes with a FREE App that verifies the result instantly after the test has been completed. It is available on iOS and Android.

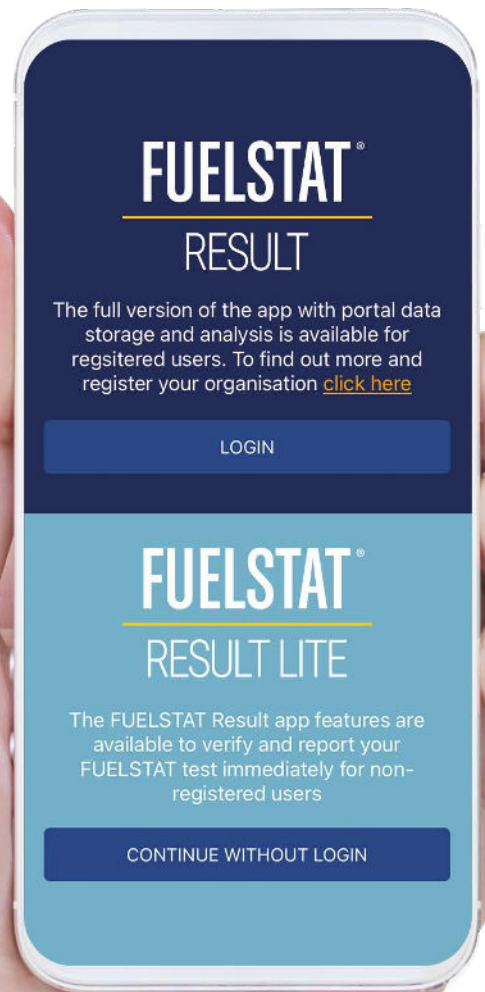

For full flexibility we now offer two options for using the app, but both are designed to give users the unique digital experience of verification of FUELSTAT® test results almost instantly using an easy to use application on your smartphone. The way you use the app is down to each individual organisation.

FUELSTAT® RESULT

The full user experience of FUELSTAT® Result combines the app with a web Report portal, allowing organisations instant access to test results conducted anywhere around the globe. Managers have control to register their users and access the Report portal to track test results across all of their assets in real time.

FUELSTAT® RESULT LITE

NEW FUELSTAT® Result Lite gives accurate verification of test results that can be shared internally. Organisations DO NOT have to pre-register; users can immediately download the app and digitally verify their first test results within minutes.

FEATURE	RESULT	RESULT LITE
FREE download via iOS and Android	●	●
Instant verification of test results	●	●
Share test results internally	●	●
Store last 10 test results on smartphone	●	●
PDF reports for each test result	●	●
Pre-registration of organisation & users	●	
Individual user login details	●	
Manager access to Report portal	●	
Track organisation's test results in real time	●	
Secure storage of test results for trend analysis	●	

FUELSTAT® RESULT APP

This free to download app gives instant digital verification of your FUELSTAT® test result, as well as storage of your last 10 tests on your smartphone.

- Provides optional **step-by-step video instructions** to correctly perform each test
- **Reduces risk** of misinterpretation
- **Immediate visual verification** of result
- Instant email share and print with professional **PDF Analysis Report**
- No need for additional equipment other than a smartphone

The full features of the app are available for both FUELSTAT® Result and Result Lite users. It supports solo working principles and gives accurate verification of test results that can be shared internally. Organisations DO NOT have to pre-register; Result Lite users can immediately download the app and digitally verify their first test results within minutes.

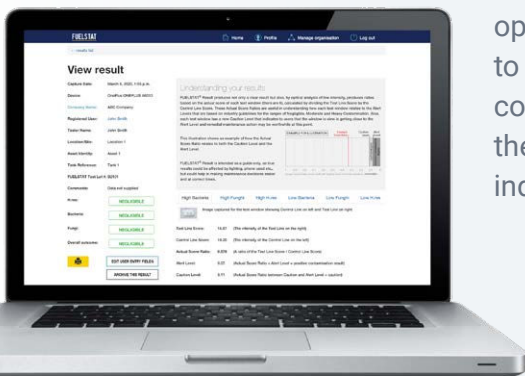

FUELSTAT® REPORT PORTAL

The registered version of the app is the option of choice for organisations wishing to manage all of their global fuel microbial contamination tests in one secure portal. Managers have access to the FUELSTAT® Report portal to view test results and can register individual users with their own unique login and password.

- **Track and manage** all test results in all locations in real time
- **Traceability** of testing
- Identification of **trends and global hotspots** for management of fuel contamination

FUELSTAT® ANALYSIS REPORT		ConidiaBioscience	
<small>This test for microbiological contamination was conducted on a fuel sample using the FUELSTAT® Plus test kit in accordance with ASTM D670 and the results reported below were read using the FUELSTAT® Result app.</small>			
REGISTERED USER			
Registered User:	John Smith	Address: Bakeham Lane, Egham, Surrey
